Families,

Attached you will find our third set of star words! Please post these stars where your child can read and practice these words daily. On the back of this page you will find the star words for the entire year. Don't forget about those star words from previous quarters! Below is a list of ways you can practice these important words with your child at home. Thank you!

1. Use magnetic letters and spell the words on your washing machine.
2. Write the words in sidewalk chalk.
3. Write the words in bubble letters and have your child color the inside of the letters.
4. Rainbow write the words.
5. Make flashcards and practice reading the words.
6. Hide the star. Find the star. Read the star.
7. Take a "spelling" test and see how many you get right.

Have fun and practice! Try to practice these words for a few minutes each day!

- Miss Caldwell
