

# PLTW Biomedical Sciences Pathway

\*Students in this course will have a second semester internship to see how their learning applies to the biomedical industry in our community. **Students completing the whole Biomed pathway including this course can earn 4 credits through IvyTech for the course BIOT 107.**

\*\*These courses can count as a science course (2 credits each).

Students seeking extra recognition should consider getting the AP+PLTW College Board credential. These students must take either AP Chemistry or AP Biology to qualify. Visit <https://www.apandpltw.org/> for more details.

All PLTW courses earn 0.5 extra on GPA with the exception of BI, which receives 0.75 additional.

All courses in this strand count towards a flex schedule for seniors.
