

PETITION FOR SEVEN (7) SEMESTERS OF ATTENDANCE

Graduation after completion of seven semesters is still permitted by the Indiana Department of Education, if allowed by local policy. A student who is graduated is no longer enrolled and, therefore not subject to the 180 day requirement that applies to all students in Grades 1 through 12, including eighth semester seniors. Students who plan to graduate after seven (7) semesters of study must petition the high school administration at the time that they create a class schedule in the spring of their junior year.

The Department of Education does make provisions for shortened class schedules if a student has an emergency or extraordinary circumstance that warrants a shortened schedule. Shortened class schedules in such instances are subject to administrative approval.

Name _____ Student ID # _____
GPA _____ Number of credits earned to date _____
