

Noblesville Schools Technology RFP Q&A

This form will provide public access to questions and answers received for RFP

RFP #1 Middle School Access Points

Q - Will there be any low voltage cabling required for the Access points as part of this bid?

A - We have CAT6A cabling already in place for the requested access points.

Q - Is this a procurement only project?

A - Yes, all install and configuration will be done in house.

Q - I would like to know if you would be open to alternative manufacturers.

A - Access points need to work with Aruba mobility controllers.

RFP #2 High School Switches and Access Points
