Cafeteria Finger Scanning

The cafeteria is moving to finger scanning in the lunch room as the method for checkout. Our other methods such as pin numbers and barcodes have become inefficient resulting in delays in the breakfast and lunch line. The finger scans will help resolve these issues and are 100% secure.

Thousands of school districts across the country have been using this technology for decades. The system will capture finger touch points and store the information as an alphanumeric code associated with your child's account. This process is not taking a fingerprint image and the data stored cannot be reproduced into a fingerprint.

We will start the finger scanning process of all students after fall break.

Library Corner

If you find something cool over Fall Break, we'd love to put it into our Library Nature Nook! Acorns, pinecones, leaves, stones, shells-- anything fun to observe. Items are considered a donation and will not be returned. Please bring items to the library in a plastic bag.

Nurse's Notes

- 1) With the cold temperatures, please remember to send your child with a coat and hat or gloves.
- 2) COVID policies are currently the same that we ended with last year. The policy can be accessed here: <https://www.noblesvilleschools.org/return>. Please contact me if you have a student who is testing or who is positive.
- 3) Please send in a set of clothing (shirt, pants, undies) to keep in your student's cubby at school. Even older kids fall in the mud or spill their lunch occasionally and they are much more comfortable in their own clothes.

Thank you for your continued support!
